EXPERIMENT 14

Create a Virtual Hard Disk and Allocate Storage Using VMware Workstation

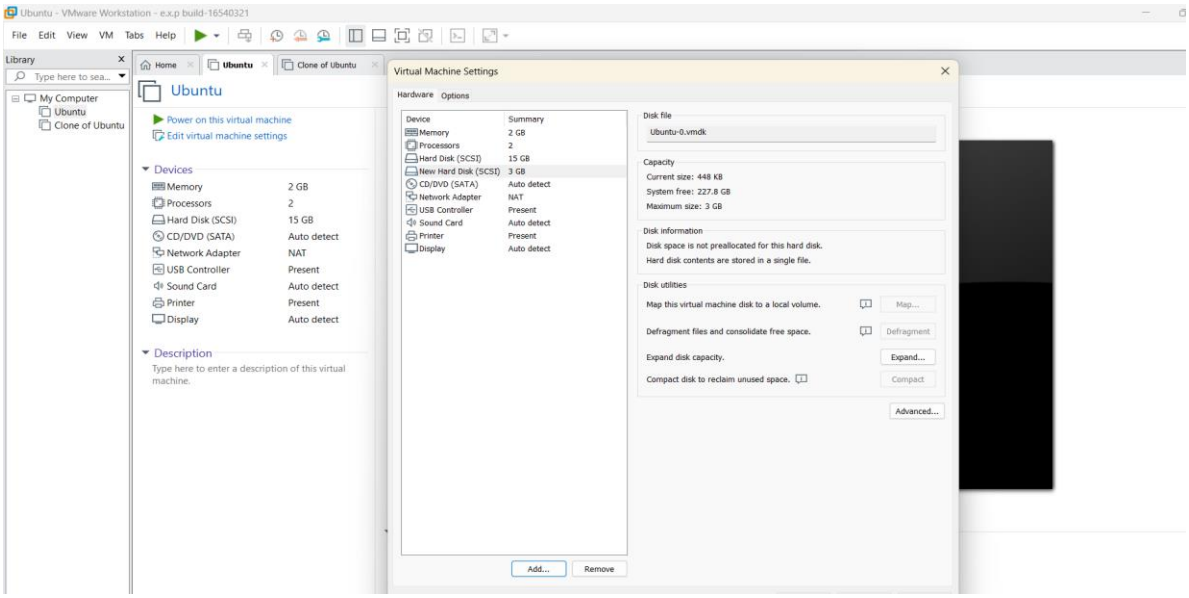

AIM:

To create a Virtual Hard Disk (VHD) and allocate storage using VMware Workstation.

ALGORITHM:

1. Open VMware Workstation.
2. Select the required virtual machine.
3. Click **Edit Virtual Machine Settings**.
4. Click **Add → Hard Disk**.
5. Select the disk type and click **Next**.
6. Choose **Create a New Virtual Disk**.
7. Specify the required disk size (15GB).
8. Select the disk storage option and click **Finish**.
9. Verify the newly created virtual hard disk.

OUTPUT:

RESULT:

Thus, a Virtual Hard Disk was created and storage was allocated successfully using VMware Workstation.
