EXPERIMENT 15

Create a Snapshot of a VM and Test It by Loading the Previous Version

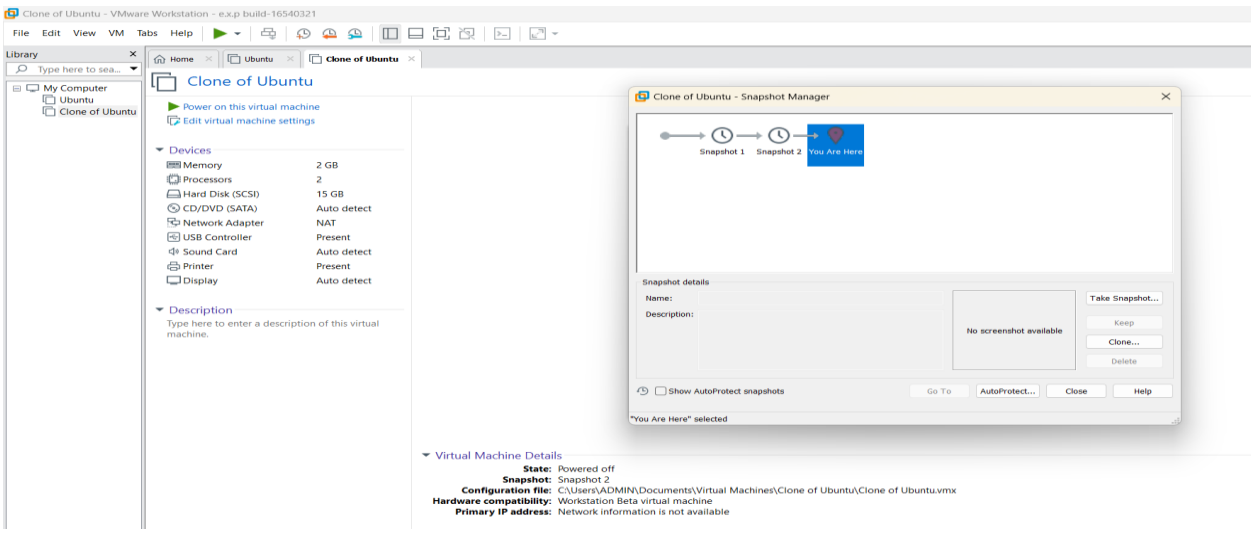

AIM:

To create a snapshot of a Virtual Machine and restore its previous state using VMware Workstation.

ALGORITHM:

1. Open VMware Workstation.
2. Select and power on the virtual machine.
3. Click **VM → Snapshot → Take a Snapshot**.
4. Enter the snapshot name and description.
5. Click **Take Snapshot** to save the VM state.
6. Make some changes inside the virtual machine.
7. Open **VM → Snapshot → Snapshot Manager**.
8. Select the previously saved snapshot.
9. Click **Go To** to restore the previous state.
10. Verify that the virtual machine is restored.

OUTPUT:

RESULT:

Thus, a snapshot of the Virtual Machine was created and its previous state was restored successfully.
